SALE FORMAT

All cattle will sell on large screen monitors. Cattle will not coming into the sale ring during the auction. Please make plans to arrive early and inspect the sale offering penned near the auction barn prior to the sale.

SALE VIDEOS

Videos will be available at Bid.SuperiorLivestock.com/auction/4670

ONLINE BIDDING

The auction will be broadcast live online at www.Bid.SuperiorLivestock.com. If you have not registered there before, you will need to create and verify an account. You will also need to "Request A Buyer Number" prior to bidding. Once you have successfully registered and received a buyer number, your name and buyer number will appear on both the video catalog page and the online bidding page when you are logged in.

For help with registration or any part of the bidding process, please call Superior at (800) 422-2117.

GUARANTEES:

Bulls are fertility tested, guaranteed to be breeders and evaluated for soundness and disposition.

FIRST-YEAR GUARANTEE

1. Full coverage for 6 mos. from date of purchase
 - Broken penis in single a sire pasture
 - Structural problems due to feet and legs
 - Disposition
2. 50% Coverage Purchase Price
 - Broken penis and/or penis injury on multi-sire pastures
 - Broken Leg, Stifle, etc.
 - Exceptions include: foot rot, wire cuts, illness, items out of Raile's control.

Any reproductive injuries need to be examined by a veterinarian within 48 hours of injury. Quick treatment can cure many problems. Injuries not checked and treated promptly will not qualify for 50% coverage. A letter from your vet will be requested. All guarantees will be covered by a satisfactory bull replacement, if available, or credit on a future bull purchase for the amount covered. Reminder - you keep the salvage value.

SEMEN INTEREST

We reserve a 1/3 semen interest in all bulls selling. Bulls we plan to collect prior to delivery are indicated in the catalog or will be announced on sale day.

TRUCKING

Trucking will be provided by Raile's to central points within a 300 mile radius. Reasonable fee for over 300 miles. Take home credit of \$75/bull if picked up on sale day or Tuesday, March 31st, at the sale site. Pick-up credit is on bulls only.

REGISTRATION CERTIFICATES

All lots being sold are registered with the American Intl. Charolais Association or American Red Angus Association, unless otherwise stated.

HEALTH

Individual health certificates will be provided on each lot. All cattle will be tested for BVD.

PERFORMANCE INFORMATION

Additional performance information will be available sale day and on our website, www.railebeef.com. In the performance data we have included weight per day of age (WPDA) and ratios, rather than average daily gain. We feel this is a more accurate measure as it includes the entire life of the calf.

ANNOUNCEMENTS

Announcements made on sale day take precedence over printed material.

THE RAILE FAMILY

Welcome

Cattlemen, friends and neighbors welcome to our 37th Annual production sale. As we began 2026 our family entered into its fifty-sixth year in Charolais seedstock production and out twentieth year raising Red Angus.

We continue to focus our genetics on phenotypically correct and fertile cattle that are extremely sound with excellent disposition. In addition to strong maternal genetics, our bulls are built for performance and carcass weight. EPDs are in the top 25% for growth and carcass traits.

The cattle industry has placed much more emphasis on how cattle yield along with how cattle grade. Now is an excellent time for you, the producer, to reap the benefits of the hybrid vigor created by using the influence of Charolais or Charolais cross bulls. Research has proven that Charolais sired cattle yield and grade very well. With an increase in carcass weights, Charolais genetics are in demand by the packers.

Thanks for keeping us in the seedstock business. We are grateful for the blessings that we have received. We look forward to your success and trust that God will guide us all in our families, communities and cattle operations.

We hope to see you at the sale — in person, or you can watch and bid online at Bid.SuperiorLivestock.com.

Sincerely,

Cliff and Judy Raile & Family

— Raile Wrangler N021 brings the kind of performance and presence that fits the front end of any catalog. He posts top 5% YWT and top 15% WW, combining extra length, shape, and growth. His sire, DCR Mr. Wrangler J15, sourced from the highly respected Doll Charolais program in North Dakota, has been a true breeding piece, stamping calves with power, consistency, and real-world practicality. His dam, the impressive F853 by LT Affinity, is advancing toward the 2027 donor pen on the strength of her production, volume, and flawless udder quality.

— Raile WR. Wrangler N031 P offers balanced growth with top 15% YW, top 40% WW, and top 20% MILK. A full brother to last year's Lot 36 now servicing cows in Georgia for Jarrod Baker. N031 mirrors that same practical, growth driven look. His dam F848 by Predator 241 is a long bodied, large framed, highly productive female whose consistency shows up year after year. As a younger calf in the group, N031 still rose to the top on performance and phenotype, underscoring the strength of this proven maternal line.

— Raile WR. Wrangler N006 P is bred for the front pasture and the front page of a sale book. He charts top 6% WW, top 4% YW, top 25% Milk, and top 15% Marb, making him one of the most complete numbered bulls in the 2026 offering. N006 has carried a standout look since birth, extra depth, muscle, and balance. His dam, H019, is one of the deepest, most broody cows in the herd, and his grandam F845 by LT Affinity continues to prove her worth by placing progeny in multiple purebred programs. This bull blends performance, maternal strength, and pedigree power in a way that demands attention.

— Raile MR. Wrangler N001 P is an athletic, free moving herd bull prospect built to cover cows efficiently and stay sound doing it. He posted a strong 108 weaning ratio (659 lbs.) and an impressive 112yearling ratio (1,344 lbs), proving his performance from start to finish. His dam D702 is a highly productive female with three retained daughters in the herd, a testament to her maternal quality and longevity. Lot 3 combines structure, stamina, and real world performance in a way that fits any program.

— RAILE THE GENERAL N015 P ranks in the top 15% WW, 35% YW, 30% Milk, and 35% TSI, with a 13.4 CE EPD for dependable calving ease. Lot 21 is a smooth made General son with extra rib and natural dimension. His dam is a productive female tracing back to Affinity and carrying the proven O538 × Bluegrass influence on the bottom side, adding maternal strength and longevity.

— Lot 22 is arguably one of the top ten bulls in the entire offering for sheer muscle and growth. He never truly had the opportunity to compete evenly with his contemporaries early on. As the youngest bull in the sale, he started behind from the beginning, and his dam J152 battled hoof rot through the summer, forcing her into the sick pen until weaning. Once weaning time arrived, this guy took off, finally getting a fair chance to show what he was capable of. Throughout the feed test, Cliff repeatedly commented, "I cannot believe how far the J152 son has come." His rapid progress, combined with his genetic profile, makes him a standout performance bull with tremendous upside.

6.0	-0.1	65	116	23	0.61	0.034	0.26

— Raile 521 N053 P is built for longevity and real world durability. Last spring we selected a group of 10–13 year old cows and bred them to 521 with the goal of producing bulls that would last. We purchased 521 from Ridder Farms in 2016, and he bred cows every year through 2025, proving his soundness and staying power. N053 is one of three sons from this longevity focused mating, each reflecting the structure, disposition, and durability their sire delivered for a decade. These bulls are bred to last and ready to work in any commercial program.

— RAILE KING N062 P is a wide based, long bodied, athletic bull sired by our herdsire, TRI N King of Pop 4110L. We purchased this sire in the spring of 2024, and this calf represents the first group of progeny sired by a Red Factor bull in our program. N062 P carries the length, muscle expression, and structural integrity we expected from this mating, combining a bold rib shape with a smooth, flexible stride. He is a practical, growth oriented herd bull prospect built to add performance, balance, and eye appeal to a wide range of cow types.

— Lot 38 is a long spined, wide topped, athletic bull with an impressive rear quarter that will add pounds and performance to any calf crop. His ratios tell the story—102 at birth, 106 at weaning, and 107 at yearling—showing a growth curve that never slowed down. He is sired by Leachman Wizard, a bull whose calves have impressed us with their easy calving, strong newborn vigor, and explosive post birth growth. This Wizard son stands out for his structural correctness, muscle shape, and ability to transmit real world performance.

— Raile Wizard N033 P is a smooth made, super long, lighter colored son of Leachman Wizard with the kind of look that gets noticed. Multiple judging teams have toured the ranch this year, and the consensus has been clear—the consistency and quality among these Wizard sons runs deep. This bull stands out for his length, structure, and overall balance, offering the kind of dependable performance that adds value in any program.

— Raile Wizard N094 P is a more moderate framed bull than the couple before him, built to be the easy keeping kind we all appreciate. On his maternal side, he goes back to the Nichole cow family, a line that has produced high quality calves for many years. This Wizard son combines efficiency, depth, and proven maternal strength, making him a practical, hardworking addition to any program.

COMMERCIAL HYBRID REPLACEMENT *Heifers*

LOT 70 | RAILE N330

Again, this year we are offering a select set of 16 high-caliber Charolais x Red Angus replacement heifers. They will sell individually, as unregistered, commercial halfblood females. We've offered halfblood heifers every year and consistently receive excellent feedback. These females can be registered upon request and are built for long term production in any program

LOT 72 | RAILE N347

Lots 70-74 are halfblood females sired by Leachman Freeride and backed by some of our top Red Angus cows. Freeride was a sire we used in our AI program in spring 2024, and these daughters reflect his maternal quality, structure, and real world functionality.

Lots 75-85 are sired by our Fink 0336 bull and out of a strong set of Red Angus cows. This group shows the uniformity, muscle, and maternal quality we expect from this mating. These cattle offer dependable, practical performance.

Introducing LEACHMAN LOCKDOWN P016L

— Here is a powerhouse young sire we believe will push the Charolais breed forward. Ranking in the top 2% for Marbling, 6% TSI, and top 15% for WW, YW, and CE, Lockdown brings a rare combination of carcass quality, growth, calving ease and balance. With 12 EPD traits in the top 20%, he offers the kind of genetic consistency that drives long-term progress.

Purchased in partnership with Leachman Cattle of Wyoming in the fall of 2024, Lockdown has developed into an absolute beast. He is deep-bodied, wide-topped, big-footed, and built like a true meat wagon—exactly the kind of sire that leaves a stamp you can spot from across the pen. We are confident his first calves will be a highlight of our 2027 sale and a turning point for our program.

Semen is available for breeders ready to add muscle, marbling, and maternal strength in one impressive package.

REFERENCE SIRE | LEACHMAN LOCKDOWN P016L

JORDAN, MEGAN, JESSIE & COLTON

Thank You

for attending our sale and your continued interest in our program!

Raising high quality cattle is our livelihood, but the part of this business that truly fuels us is the time spent traveling across the country, meeting new friends, and delivering seedstock to the people who trust our program. A college professor once told me, “Selling bulls is the easy part. The craft of a true seedstock producer is building friendships while you do it.” Those words have stuck with us, because that’s exactly what we enjoy most—communicating with our customers, learning their goals, and becoming part of their operations. The miles on the road are never just miles; they’re opportunities to connect. The picture of Colton delivering bulls to Georgia this past year with his friends Jordan, Megan, and Jessie is a perfect example. Moments like that remind us why we do what we do: great cattle, great people, and a lifestyle built on relationships that last. We can’t wait to see our old and new costumers in the spring of 2027!
